Re: Approval of Request of Extension on Notice of Intention to Revise Mining Operations, Interstate Brick, Fivemile Pass Mine, M/045/006, Tooele County, Utah

Dear Mr. Hewitt :

On December 13, 2002, we received your request for a 30-day extension to submit the updated maps and revised mining and reclamation plan, as was directed in a November 4, 2002 Potential Noncompliance letter. We appreciate your meeting in our office on November 27, 2002 to discuss the issues identified in this letter. We will grant the 30-day extension to January 4, 2003, as requested, to submit an acceptable plan that details your current mining operations and rectify the inaccuracies in your existing plan. The use of Arc View and a GPS unit which easily interfaces with this software will benefit you and your company at all your mine sites to generate accurate maps and plans.

You mentioned in your letter that you would like a meeting with Doug Jensen, regarding bonding issues. Due to the upcoming holidays and personal schedules, Doug will be unavailable until after the first of the year. Please contact him at 538-5382 before Thursday of this week if you wish to talk with him.

Sincerely,

Tom Munson  
Reclamation Specialist
